Philadelphia, Sept, 16.-Philadelphia defeated Detroit today in the first game of what is considered to be the crucial series of four contests for the American league pennant by 2 to 1 Although showers fell before and during lay, nearly 25,000 people saw the game. The players were surrounded by a hundred policemen, who were sent to the grounds to preserve order and to protect Right Fielder Cobb of Detroit who had received threatening letters because of his having sniked Baker of Philadelphia during the re-Baker of Philadelphia during the recent series between these teams at Detroit. The only incident which required the interference of the police was when D. Jones was accused of making an objectionable remark to Murphy as the latter passed Detroit's bench. Murphy drew back his arm as if to strike Jones, but policemen prevented any blows being struck.

BIG DEMAND FOR STOCKS.

United States Steel, Union Pacific and Reading the Favorites.

New York, Sept. 16.-There was a New York, Sept. 18.—There was a newed outburst of speculative demand for stocks today and a striking demontration of strength was the consequence. The movement again converged on the recent favorites, United States Steel, Union Pacific and Reading. In the last named stock profittaking acted as a restraint on its price movement in spite of the enormals. The Cheapest and most durable Trunk on the market today. We carry all kinds of Trunks. The individual transactions in United States Steel were scarcely less striking and the aggregate dealings even larger than in Reading. When it is considered how large a number of the shares of the Reading are held by corporations for division of its control and are unavailable for the open market the proportion of the total market supply of the stock turned over in the course of as active a day's speculation as today's indicates the artificial character of much of this apparent activity. In United States Steel the absorption was aggressive and determined at all levels and the price moved upward with great apparent facility and without hesitation on account of the heavy offerings encountered at various stages. Advices from the iron and steel trade were of brilliant prospect and active present demand, the placing of orders extending forward additional periods into next year. The larger rail orders placed by the railwoals were dwelt upon as especially significant of the stirring of a demand hitherto cautious and belated. The buoyant rise in the principal industrial security was of marked sympathetic effect on the whole stock list. Union Paqific loomed into marked prominence again, following the publication of the brief and simple provisions of the will of the late head of the system. The banks continued to lose cash and the fact that the sub-treasury alone has absorbed almost twice as much as the actual

Connie Mack is extremely sanguine that his Philadelphia Athletics will take three out of the four games of the present series from Detroit. The Philadelphia pennant chasers made a nice beginning by walloping the Tigers in the opener Thursday.

Says the manager of the Athletics:

"Naturally I shall prefer the left-handers against Detroit, and Plank and Krause may work three of the four sames. Goal from Field 3 Points—New Conditions for this Season Explained.

Although the changes in the rules under which football will be played this fall are not very radical, compared with some of previous year, they are, nevertheless, of extreme importance. These changes, rather than being alterations in the game, tend to eliminate unfairness in the rules and to make the offense and defense more equal. The following are the important them.
